

Lnk Technologies

MANAGE WHAT WE CAN MEASURE - WE
BRING VALUE TO SUSTAINABILITY

Audrey Roos

www.lnktechnologies.co.uk

We automate sustainability transformation and provide financial rewards for decarbonisation

We offer products and services to support each stage of the process from beginning to end

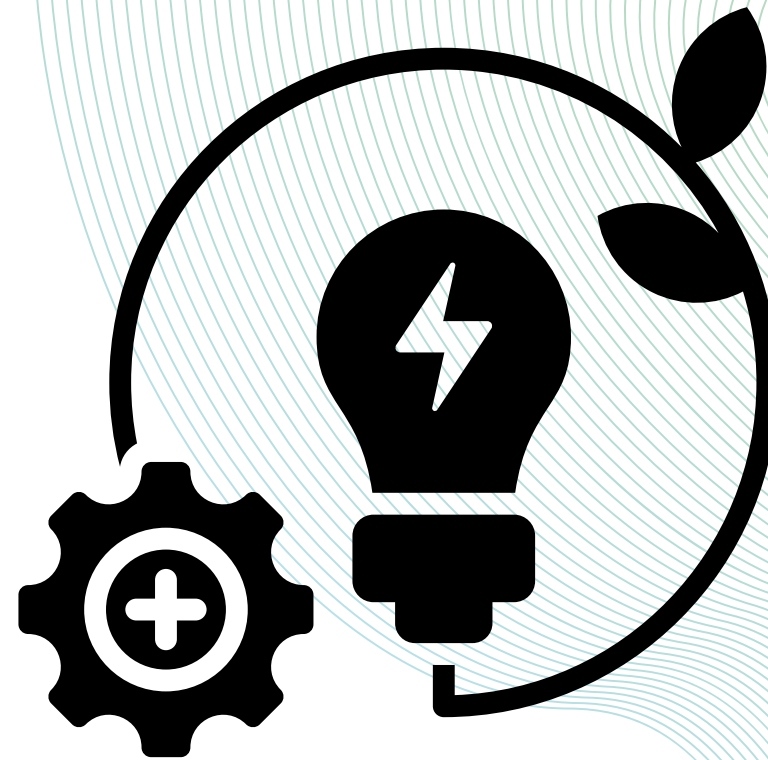

6 step by step methodology

Problems

Comply with carbon reporting regulations

Maximise Energy efficiency and cooling

Deliver on sustainability goals at cost

Solutions

To automate the sustainability transition of large businesses

Identify

IoT sensors providing
real time consumption
data

Report

meaningful
representation,
intuitive & proactive

Resolve

AI generated analysis
highlighting issues
with suggestions to
reduce consumption
and cost

Prompt action

proactive
remediations
creating real ROI &
immediate savings

Organizational structure

Group

**Lnk
Technologies**

Sustainable digital eco-system of platforms for companies

Lnk IT

EA consultancy/
software developers /
IT support contracts

Products

Carbonlnk

Energy Management and carbon accounting platform

LnkCoin

Digital Carbon credit

Strategic partners

**GENERATION
POWER**

Installers of Solar panels / EV chargers / Green Energy solutions

LIBERATION™
Liberate Your Digital World

Sustainable data centers using patented cooling systems

Services

Data Center Design

CCIE expertise in data center design all sizes from small POPs to Hyperscallers

Energy brokerage

New connections facilitation, brokerage on energy prices, design and profiling

Carbon management

strategic planning
Reporting
compliance

Service design

ITIL level service design and delivery, contract negotiations on SLAs

Product : CarbonLnk

Real time data, 99.5% accurate

Automated reporting using IoT Sensors

Easy to use and intuitive

AI generated recommendations

All in one solution cheaper than competitors

Actionable Insight

Gold standard of Carbon reporting supported by ultra accurate real time data

1

Monitor system for risks

2

Optimise Energy use

3

Carbon emissions reporting

Maximises energy efficiency and report on Operational Carbon emissions

Differentiators

Using precise scientific data, proven methods, and an experienced team, we ensure reliable results with a data-driven plan that shows real, measurable impact

Comprehensive solution at great value

Offer spans across 4 of the 6 spans of the market
50% cheaper than comparative carbon accounting systems

Technology enabled

Easy to use
Intruitive
Predicative
Extremely accurate
Packed with features

Monetary Incentive

Actualize energy and operational savings
Offers monetary incentive for producing green energy

Seamlessly automated

Reduce tedious manual tasks
Machine to machine automation via encrypted blockchain on centralized servers
